Microsoft UWP app templates for PowerPoint

Version

1604, updated April, 2016

File requirements

The Microsoft Universal Windows Platform (UWP) app templates/toolkits require the following software to be installed and up-to-date:

- Microsoft PowerPoint

What files are there?

There are three bundled PowerPoint files:

- One app template/toolkit for phones
- One app template/toolkit for tablets
- One app template/toolkit for PCs

There is one set of Storyboard shapes in the Storyboard shapes directory:

- Controls shapes for UWP apps_v2.3.43.sbsx

What's in the files?

- The Storyboard shapes file contains UWP controls and elements for designing your UI.
- Each app template/toolkit includes getting started information, instructions on how to build UI, information about type and colors, and a device frame.
